Huron High School Swim & Dive Timing System Fundraiser

August 8th, 2022

Hi everyone,

Hope you all have had a wonderful summer but are still finding time for fun activities before school begins. I am letting you all know that we are doing a fundraiser for the swim team to purchase a complete timing system and display board for use at the Danbury Natatorium. This system will include touchpads, plungers, cables, consoles, starters beeper, scoreboard and everything else needed to run a modern swim meet and bring Huron/Danbury swimming up to par with other facilities. The cost of this system and upgrades to the pool's electrical system is approximately 36k with expenses being split 50/50 between Huron and Danbury. We are reaching out to friends of Huron swimming and swimming alumni to help finance this one time project. We have an excellent relationship with the Danbury schools, swim team and aquatic staff. Our swimmers practice immediately after school and are home at a very reasonable hour. We are asking for one time donations for this special project which we would like to purchase by September 1st so that we can get everything installed by October/November. The Huron Athletic Boosters have agreed to help us in this project. All donations can be made to them. Those that are able donate \$1,000 or more will be recognized on a special plaque at the pool. Please contact me with any questions or concerns. Go Tigers!

Randy Lehrer, Head Coach
